

Differentiate yourself with the Perfect 10!

Following feedback from our members, we're delighted to introduce our 10 year guarantee!*

Our extended guarantee lengths are one area where you can really differentiate yourself as a WAI. When installing any Greenstar CDI boiler and Greenstar System Filter with either the Wave, Comfort I or II control or one of our Greenstore cylinders you can offer your customers a 10 year guarantee.*

Our Greenstar CDI boiler range is the first choice for many of our Accredited Installers, but don't worry if you prefer the Si, you can still access a 9 year guarantee.

We've updated our leaflets on the website so please take a look and get promoting this fantastic offer. This package is available for any installations from the 1st July 2015.

Please register your products in the normal way on the WAI website or via the guarantee app.
